The programme consists of four courses addressing one of four age groups in primary schools. Each course has 20 topics organized in five units, in Croatian.

1. INITIATING ORGANIZATION(S), PARTICIPATING COUNTRIES

A European Union-funded project developed by OŠ Veliki Bukovec, together with partners OŠ Popovača, OŠ "Mladost", OŠ "Gripe" and OŠ "Mato Lovrak", Croatia and associates in Croatia.

2. THEORETICAL APPROACH

A holistic approach involving students, parents and teachers on the same goal, making the most of teachers' potentials and new technology, to improve students' digital competences and encourage children to assume responsibility for their own safety as much with a focus on empowerment, emphasizing responsible behavior and digital citizenship. Study visits (Belgium and United Kingdom) explored the existing school curriculum and examples of good practice in the area of online child safety.

3. PROGRAM DURATION

16 months: August 2013 - December 2014. Once implemented in a school, curriculum is intended to be run permanently.

4. COMPONENTS AND PRACTICAL INFORMATION

A curriculum area for children's safety on the Internet with pedagogical and didactical models for student-centred learning. Four courses addressing one of four age groups in primary schools (students aged 7-8, 9-10, 11-12, 13-14 years). Each course has 20 topics organized in five units. Teaching/learning materials for each module include:

- Textbooks for students (40 pages or more), 20 topics/lessons
- Teachers' guides (short - 16 pages, long - around 100 pages), 20 lesson plans
- Guides for parents (40 pages), 20 topics/articles

Multimedia resources different for each module:
- Module 1- 5 games, 6 animated stories, 1 quiz, 2 videos, 42 other learning objects
- Module 2 - 7 games, 5 animated stories, 4 quizzes, 2 videos, 59 other learning objects
- Module 3 - 4 games, 5 animated stories, 4 quizzes, 50 other learning objects
- Module 4 - 5 games, 4 animated stories, 3 quizzes, 61 other learning objects

110 videos and animated stories are published on YouTube channel petzanet.HR
https://www.youtube.com/channel/UCu_Vqpl6y4XHOT3GtUFDFw those videos are synchronized or subtitled for Croatian language. For animated stories subtitles in English are provided.

5. PROGRAM PARTICIPANTS

Five primary schools, 218 teachers, 2763 students, 1357 parents. In 2014-2015 30 primary and secondary schools were using Pet za net resources.

6. ASSESSMENT

The programme was evaluated in pilot testing and showed that just one month of implementation raised digital competencies of students and significantly raised awareness about e-safety among
parents, teachers and students.

**SIGURNIJI INTERNET**

Center for Missing and Exploited Children Helpline and center for safer internet.

**1. INITIATING ORGANIZATION(S), PARTICIPATING COUNTRIES**

Center for Missing and Exploited Children (Centar za nestalu i zlostavljenu djecu) from Osijek, Croatia

**2. THEORETICAL APPROACH**

The motive for the establishment of this kind of organization, the founders of the Center have found in a real lack of state protection of children from sexual exploitation and abuse through the Internet and the spread of child pornography and pedophilia, and other forms of abuse associated with use of the Internet.

**3. PROGRAM DURATION**

Ongoing

**4. COMPONENTS AND PRACTICAL INFORMATION**

Through their web www.cnzd.org they are providing 24/7 help for exploited children focusing primarily on Internet safety programs. Center for Missing and Exploited Children is a nonprofit organization established in 2006 in Osijek, modelled after similar organizations in the world. In November 2013 they introduced new helpline for exploited children. One of their main goals is to inform children on risks and threats coming from Internet, but they are also offering special software for safer Internet, not just for children but for their parents as well.
